Kristen Christiansen

has successfully completed the online, non-credit Specialization

CompTIA A+ Certification Core 2 (220-1102)

Congratulations on successfully completing the CompTIA A+ Core 2 (220-1102) certification course! This course covered key IT topics, including operating systems, security, troubleshooting, and essential IT operations. You explored the structure of the CompTIA A+ exam and developed crucial skills such as professional communication, customer handling, and safety procedures. You also gained expertise in operating systems like Windows, macOS, and Linux, as well as in user management, file systems, and troubleshooting. Additionally, you learned important security practices and operational procedures to ensure smooth IT infrastructure management.
